

# ROCHESTER CITY SCHOOL DISTRICT

## BACKGROUND

IBC Engineering has worked with the RCSD since 1996. We have assisted the district in writing and implementing district wide standards for M/E/P/FP. IBC has performed professional design and construction administration services all 50 plus district owned buildings. Projects include:

Classroom Additions	Public Address
Security/ Access Controls	Clocks
Portable Classrooms	General Office Renovations
Boiler Replacements	Health Suites
Emergency Power Distribution (Low & Medium Voltage)	Distance Learning
	Computer Labs
Direct Digital Energy Management System	Scienc Rooms & Chemistry Labs
	Libraries
HVAC and Unit Ventilation System Replacement	Auditorium
	Gymnasium
District Wide Voice, Video, Data Networks	Internal Renovations for Classrooms
	CCTV
Cafeteria & Kitchen	Fire Alarm

IBC has also worked with the district in securing additional Federal Funding through E-Rate Reimbursements and IDEA Grant which brought to the district over \$2 Million in additional funding.

## PROJECT SPECIFIC EXPERIENCE

IBC has completed the following projects with RCSD staff:

- Complete facility modernization projects at schools 5, 12, Charlotte Middle School and Franklin High School.
- Boiler and piping replacements including hot water and steam applications at the following schools: 3, 4, 5, 7, 12, 16, 23, 33, 35, 52, Douglas Middle School, Marshall High School, and Wilson High School
- Unit Ventilation Replacements Hot Water and Steam Applications at schools 4, 12, 33, 52, Charlotte High School, and Wilson High School
- Central Station HVAC System Replacement including Steam Hot Water and Chilled Water Systems at schools 3, 5, Douglas Middle School, Wilson High School, Wilson Foundation Academy and Marshall High School
